PROFESSIONAL SUMMARY

Computer Science graduate focused on **full-stack development and practical AI applications**. Hands-on experience building **React interfaces, Node.js/Express REST APIs, MongoDB-backed features, and a deployed portfolio**. Familiar with **authentication flows, API integration, and core GenAI concepts** including **LLMs, prompt engineering, embeddings, vector databases, and Retrieval-Augmented Generation (RAG).**

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, Python
Frontend Technologies:	HTML5, CSS3, React.js
Backend:	Node.js, Express.js
Database:	MongoDB, Vector DB
Developer Tools:	Git, GitHub, VS Code, IntelliJ Idea
AI/GenAI:	LLM fundamentals, prompt engineering, embeddings, vector databases, RAG

EDUCATION

Noida Institute of Engineering and Technology Dec 2022 – June 2026
Bachelor of Technology in Computer Science and Engineering

Guru Tegh Bahadur Public School 2021
CBSE Class-XII

K.L.G Public School 2019
CBSE Class-X

PROJECTS

Agentic AI Website Builder | React.js, Node.js, Express.js, Monaco Editor, Sandpack

- Developed an AI-powered website builder that generates React websites from natural language prompts using Gemini API.
- Implemented a custom agent workflow to generate and modify website code dynamically.
- Integrated Monaco Editor for code editing and Sandpack for live website previews.

Personal Portfolio | React.js, Node.js, three.js, Nodemailer

- Developed a responsive personal portfolio website using React, showcasing technical skills, projects, certifications, and education.
- Implemented interactive UI elements, smooth scrolling effects, and modern animations to enhance user experience.
- Integrated a contact form with a backend API to handle visitor messages and deployed the website online.

NextStep AI | React.js, Node.js, Express.js, MongoDB, Gemini API

- Developed an AI-powered career guidance platform that provides personalized career assessments and recommendations.
- Integrated Gemini API to generate dynamic career questions and analyze user responses.
- Implemented JWT authentication, protected backend routes, and APIs for career analysis and user data management.

PROFESSIONAL EXPERIENCE

Walmart USA | Advanced Software Engineering Job Simulation | Forage – virtual internship | Aug 2023

- Implemented a heap data structure in Java and worked on UML and database design.

Lyft | Back-End Engineering Job Simulation | Forage – virtual internship | Aug 2023

- Refactored backend code and implemented unit testing using Test-Driven Development (TDD).

CERTIFICATIONS

Introduction to Artificial Intelligence (AI) - **IBM**

Object Oriented Programming in Java - **UC San Diego**

Java Programming: Arrays, Lists, and Structured Data - **Duke University**
